### E-SST Tube

Additive: gel+clot activator  
13x75mm, 13x100mm

The gel infused in the middle of the tube, and a hole penetrates through the gel vertically. The new technics will reduce the time of centrifuge and the relative centrifugal force, meanwhile, high quality serum can be separated well.

### Disposable Pen-type Blood Collection Needle

-- Multi-sample Needle

#### Features:

- \* Top needle cover: be made of medical grade PP, it gives protection to needle from damage
- \* Loer needle cover: be made of medical grade PE
- \* Needle tube: be made from cold roll stainless steel, the needle tube is thin walled which allows a larger internal diameter resulting in improved flow rate
- \* Siliconised needle: to minimize trauma and with short bevel to minimize risk of vein cross perforation
- \* Multi-sample needles permit several samples to be taken with a single puncture
- \* Sharp & smooth edges make penetration painless, easy connection to rubber stoppers
- \* Latex free, sterilized by EO gas, non-toxic and non-pyrogenic

#### Needle Holder

- \* Transparent plastic material is easy for doctors to observe blood collection status of vacuum tubes
- \* Double screwing juncture can fasten blood collection needle tightly

**Disposable Surgical Blade & Scalpel**

**Features:**

- \* Product Use: This product is used for the basic surgical surgery for cutting soft tissues
- \* Types: Disposable carbon steel surgical blade  
 Disposable stainless steel surgical blade  
 Disposable surgical scalpel
- \* Specifications: 10# 11# 12# 13# 14#15# 16# 17# 18# 19#20# 21# 22# 23# 24# 25# 36#
- \* Sterilization: By gamma radiation
- \* The characteristics:
  - A. The packing is done with seal by the compound material of polyester and aluminium foil with the nature of the good airtight-ness and bacterium isolation
  - B. It is sterilized by the Co-60 gamma radiation and can be used directly without being re-sterilized before use
  - C. It can prevent the cross infections from the medical sources and be suitable to the field rescue
- \* Directions of use and points for attention:
  - A. Tearing open the package according to the indicated direction by words on the small package
  - B. Forbidden to use if the small package is damaged
  - C. Forbidden to use if the appearance is rusty and cracked

**Rapid Tests**  
**One-step hCG Pregnancy Test**

The hCG test is a fast, easy to use, qualitative immunoassay for detecting human chorionic gonadotropin(hCG) in urine sample.

- **Qualitative result in 2-5 minutes**
- **10, 15, 20, 25mIU/mL sensitivity**
- **99% accuracy**
- **Take sample any time of day**

hCG tests are available in strip, cassette and midstream format, convenient test has a sensitivity of 10mIU, 15mIU, 20mIU, 25mIU/ml, making it an effective aid in early detection of pregnancy, the one-step hCG pregnancy test is suitable for both professional and home use.
